Should be required reading!By Jeffrey M. MarkhamWell thought out book with great ideas. Energy efficiency through age old ideas of facing the house to the south, prevailing weather, etc. Things we may have forgotten with modern conveniences like air conditioning and heating! Still important today!0 of 0 people found the following review helpful. To become a Standard practice-a sensible choiceBy Tim AYou want to live of the grid, lessen your carbon footprint, prepare for climate variation, live closer to nature or just live in a very cool way Michael Reynolds will help you see a way this can be possible. A vital tool for humanities adaption to the coming 'change'
