Commercial Lighting: A Really D\*\*\* Cool BookBy A CustomerThis book is full of big jaw-dropping color photos of uniquely designed and lit homes, businesses, restaurants, museums, and other spaces. It's amazing to see what people dream up in shaping the ideal environment. If you're seeking a rich source of fresh design ideas for a planned space, or if you just like to dream, or even if you just know an architect or interior designer who needs a gift, this is the book for you.If you hate color pictures, new ideas, or lavishly exotic personal design and lighting, this book is not for you.0 of 0 people found the following review helpful. magic of lightingsBy jongseo kimlightings are magic for commercial businesses.0 of 10 people found the following review helpful. magic of lightingsBy jongseo kimlightings are magic for commercial businesses.

Commercial Lighting presents a host of creative lighting designs for commercial spaces. Each section illustrates interesting and effective lighting designs for restaurants, offices, retail stores, and more. The designs showcased in these pages were created by the top lighting designers in the world-making this a terrific tool for interior designers and architects, as well as for business owners and design students. Includes detailed, full-color presentations of the best lighting designs for commercial spaces from internationally recognized designers. --Brief captions describe each

project, design, and the materials used. --The categories covered include retail stores, restaurants, corporate offices, malls, medical offices and buildings, and small-business spaces. --In invaluable reference for interior designers, architects, and business owners.
