Editors of Sunset Books : Complete Home Plumbing before purchasing it in order to gage whether or not it would be worth my time, and all praised Complete Home Plumbing:

0 of 0 people found the following review helpful. Sunset Complete Home Plumbing.By Mr. I. N. YatesVery good useful book I came from England where the plumbing is a lot different to American plumbing so I have found it very useful.0 of 0 people found the following review helpful. Good bookBy rick cameronMy needs were more for specific information about codes and sizes of vent pipe. Otherwise it was very informative and I will refer to it often as I do other plumbing projects in my house.0 of 0 people found the following review helpful. Five StarsBy Customergreat buy

All the plumbing know-how needed for repairs, remodels, or even building from scratch. Easy-to-follow text and pictures illustrate basic and advanced projects, from remodeling a kitchen to adding on a new bath or simply fixing a

leaky faucet. There`s also a chapter with how-to`s for plumbing outdoors. A must for every homeowner`s bookshelf.
