Very clear and "to the point" book !By Dragonfly27Plain and simple, which is exactly what I needed, save me some money and learned some basic plumbing jobs, very needed around the house! It couldn't be any more clear, very handy book to have and good investment! A professional or a company would of charge me \$\$\$\$\$..... I had a great night out with my friends instead \$\$\$!!0 of 1 people found the following review helpful. Good readBy bookwormserIt's good for a refresher course on plumbing and has information found in more expensive books. I'll keep it around until I'm to old to do my own plumbing.0 of 6 people found the following review helpful. Haven't read it yetBy Karen W.I haven't read it yet but wanted to purchase in order to have it when I'm ready to redo the bathroom.
