G E THYER : Computer Numerical Control of Machine Tools, Second Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Computer Numerical Control of Machine Tools, Second Edition:

This is a comprehensive textbook catering for BTEC students at NIII and Higher National levels, advanced City and Guilds courses, and the early years of degree courses. It is also ideal for use in industrial retraining and post-experience programmes.

'This is a fine publication covering most areas of CNC and CAE work for the GNVQ course.' Calvin Williams, Gorseinon College, Swansea
