**Nonie Niesewand, David Stevens : Conran's Creative Home Design** before purchasing it in order to gage whether or not it would be worth my time, and all praised Conran's Creative Home Design:

From Library JournalThis is a comprehensive and well-presented collection of Conran's home decorating ideas. The overall design models are supplemented by many clear step-by-step instructions. Particularly helpful are how-to line drawings, providing such information as how to tile a window sill, create specialist paint finishes, seal a wooden floor, etc. Practical low-cost advice is accompanied by more than 480 good color photographs. This sourcebook is full of helpful ideas on transforming spaces, including halls, living rooms, kitchens, bedrooms, and bathrooms. Two chapters cover design of small gardens and backyards as a way of extending and completing the personality of the home. An excellent basic addition to interior design collections.
