Cornelia Drries, Sarah Zahradnik : Container and Modular Buildings: Construction and Design Manual

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Container and Modular Buildings: Construction and Design Manual:

Bold and unconventional ideas are called for if the intention is to steer the debate on temporary accommodation for refugees in a new direction offering high-quality solutions. From eccentric experiments all the way to projects which have already been realised, international design teams present their work between the twin poles of unconventional developments and life-saving shelters in this compilation of case studies, Container and Modular Buildings. Not all of these are applicable to the current refugee crisis, since that which digital nomads find hip constitutes harsh reality for

others. Yet alongside playful follies, we can find miniature architectural structures for the homeless as well as outpatient medical stations which offer a response to social problems and space shortages. The photographic material puts forward ideas as to how more can be done than the mere assembling of containers.

About the Author
Cornelia Drries is an author and studied urban sociology in Berlin und Manchester. As a freelance author she primarily writes about urban development, urban history, architecture and interior design. She lives and works in Berlin.
Sarah Zahradnik is an architect and received her Masters degree in Architecture from the University of South Australia. She has worked in four different continents, including in architecture practices in Australia, Brazil, Mexico and Germany. Since 2015 she has worked for MeuserArchitekten/DOM publishers in Berlin.
