The book itself arrived in excellent condition. However, I was disappointed in the content. I expected much more creativity in contemporary Chinese design. 3 of 6 people found the following review helpful. Disappointed By DSB Not as helpful or as interesting as I had hoped. I can find better ideas for Asian modern decorating in my vintage issues of Architectural Digest, especially from the late 1940s through 1960.

Contemporary Asian Bedrooms opens the door to a new world of slumber retreats, showcasing some of the most eye-

catching bedroom designs in luxury homes and hotels in Southeast Asia. Shown here are a range of new design trends, from Zen minimalist to exuberant color kaleidoscopes that make contemporary bedrooms more than just a spot for shut-eye. This book gives homeowners and designers a look at new ideas, shapes, colors and textures that transform the places we sleep into high-style, must-have dream spaces.
