Very Useful By Decorating Fanatic Of course the majority of the rooms are contemporary but there were a few that made me wonder. I saw a few rooms that I just wouldn't have classified as contemporary. I think this book did a GREAT job of defining and showing examples of many elements that make a room contemporary. There are so many decorating books that only offer great photos. This book taught you to identify contemporary items so that you could easily apply the information when you are selecting items for your own home. 2
