It is really excellent to have info about the vegetable (harvesting ect..) combined with some recipes. I received it as a gift and have given two away as gifts to others. Could not find it the last time I wanted to give it as a gift.... AMAZON to the rescue!

A look at cooking with vegetables. It provides information on all the best-tasting varieties: what they look like and taste like, why they are so good for you, how to select and store them, and especially how to cook them. The 85 recipes detailed combine maximum flavour with maximum nutrition. They include Grilled Aubergine Platter with Roasted Red Peppers and Feta, Leek and Green Peppercorn Tart, and Horseradish Mash with Sausages and Caramelized Onions.
