Helpful book!By JakeThis book is very much like something Martha Stewert would put out. I liked that fact, being I'm a big fan of hers I just had to get this book. This book will help you out so much with your decorating problems. For example if your can't figure out how to set up your backyard for a wedding or a party this book will give you lots of helpful tips. I loved this book and you should too, so get this one if your having trouble decorating and even if your not you should still get it for some fresh ideas.

This all-encompassing guide explains how to use garden elements effectively, how to make the most of your space, and how to decorate your garden so that it remains interesting even in winter. Carefully styled photographs and plenty of good advice illustrate excellent ways to prettify and personalize your home outdoors. Minneapolis Star Tribune.

From Publishers Weekly In the same summertime spirit, Deborah Muller Price and the editors of Country Living offer Country Living Garden Decorating: Accents for Outdoors, a book that explains how to use garden gates and doors, rustic watering cans, clay pots, paths and walkways, lanterns, garden seats, sandstone borders and dining areas to increase the aesthetic quality and comfort of one's garden.
