This book was so much fun!By bjgrose@cwo.comI received this book as a gift from a friend that knew I love fabric and love color. I have spent hours (literally) thumbing through this book, enjoying the colors and enjoying the different decorating styles. My friends and I pulled it out at one of our Girls Only slumber parties (I'm 39) and spent 2 hours looking, and oooing and ahhhing over it! I also got the nerve to paint my living room sage green, and I love it! Fun, fun, fun book!

Country Living True Colors Color is available to everyone -- it is the most exciting, most powerful, and easiest-to-use decorating tool. Wonderfully versatile, it can be introduced into a room in an infinite number of ways, from paint and fabric to decorating details such as wallpaper; rugs, art, and collections. With this in mind, the editors of Country Living invite you to take a look at color at its country best. True Colors presents natural and pastel colors, two muted color families with the ability to enliven rooms with refreshing delicacy; then explores four bold and brilliant hues -- yellow, red, blue, and green -- that always lend vibrancy and drama to any space. The contributions that paint, fabric, and decorating details can make are detailed, proving what a vital tool for self-expression color can be. To inspire you, True Colors offers more than 200 color photographs of every room in the house, providing simple, fresh ideas to help you create a warm, inviting, and colorful home.

.com "Bold use of color," declares the book's forward, "like profound music and poetry, can evoke emotional responses not easily described." Color is a vital part of an exciting and interesting environment, yet so many people are afraid to use it; they wind up instead with safe (and very dull) rooms. Fear no longer. With the help of this spectacularly visual book, just about anyone can learn to utilize color as a versatile and powerful decorating tool. Crammed with ideas, the well-written text explains how to successfully employ both bright and pale shades through the use of paint, furnishings, fabrics, and decorative accents. Every spread is filled with intense, eye-catching photographs that should inspire even the most timid homeowner to introduce some color into every room.
