Gerry Hartigan : Country Plumbing: Living with a Septic System before purchasing it in order to gage whether or not it would be worth my time, and all praised Country Plumbing: Living with a Septic System:

0 of 0 people found the following review helpful. Five StarsBy Carmen G. ThomasGreat book, very helpful0 of 0 people found the following review helpful. Stuff you really need to knowBy DaleIt's surprisingly difficult to get the simple facts on this stuff! There's no town septic system here, and yet the local library has nothing on it. Forget the advertising and mythology. This book will give you the information you should have if you are living with a private

septic system.0 of 0 people found the following review helpful. Five StarsBy Keri J StrenoA+

You can keep your septic system running day-after-day, year after-year. First published in 1984, *Country Plumbing*, in its initial edition, went through eight printings and has educated and entertained thousands of country dwellers who live beyond the reach of public sewer systems. Now, with the contribution of Mike Haupt, this revised edition contains information about some of the more recent developments in the world of private sewage treatment facilities. Even in restricted areas such as lakeside properties or small lots, you can live without a public sewer hook-up and still be a good steward of the environment.

From *Scientific American* Never thought you could have fun reading a book about plumbing? You have another think coming. From *The New Yorker* The book is extremely well written, and its 80 pages are filled with diagrams and some amusing illustrations by Bob Vogel.... You may find *COUNTRY PLUMBING* to be the best read book in your library. Just be sure your friends who borrow it return it promptly. "This is a dynamite book. It should be owned and studied by every person who lives in the country. It is a practical and step-by-step guide through one of lifes great crises what to do when the drains dont work. It also describes how maintenance can prevent such a crisis. Martin L. Johnson, Ph.D., P.E. Former Commissioner of Vermont Water Resources ""The best and certainly the most entertaining, common sense guide weve seen to a universal rural problem: septic systems. *Mother Earth News* "
