Jessica Lawson : Cozy Interiors before purchasing it in order to gage whether or not it would be worth my time, and all praised Cozy Interiors:

0 of 0 people found the following review helpful. Book gave me a cozy feelingBy LilyBartI first saw this book during a trip in Southeast Asia. I searched for it and was pleased to find it for sale back in 2006. Today I took it off the shelf once more and paged through it. I am always inspired by the singular settings depicted in the book. I may not live in one of the beautiful houses shown in the book, with vaulted ceilings and verdant views, but I like to think I can adapt the eclectic spirit that permeates the furnishings shown in this book. It lifts my spirits. Highly recommended for opening one's mind to unusual combinations of color and furniture and ideas on fabrics.4 of 4 people found the following review helpful. For the interior decorating fanaticBy LynnI received the book as a Christmas gift and truly love it! I am often looking into it and getting new ideas every time.There are so many decorating magazines out there but not one that qualifies to the originality and craft of this book. It is one of those rare finds. If there was more like it out there, I'd buy them all.

Book by Lawson, Jessica
