296 architectural drawings, floor plans, and photographs illustrate 40 different kinds of "Mission-style" homes from The Craftsman (1901-16), voice of American style of simplicity and organic harmony. Thorough coverage of Craftsman idea in text and picture, now collector's item.

"Stickely's designs incorporate a natural, rustic and spacious look that is complete and satisfying. This wonderfully detailed book is still relevant today for those interested in this classic style."--Mountain Living
