Good "How To" book pertinent to my location.By SkipGThis is a very good "How To" book that pertains to my situation down in Key West.

If you've been fighting with your Florida garden, you're doing it wrong! Florida wants to be covered in forest, not grass and annuals. Picture yourself strolling through a lush and tame jungle loaded with sweet fruit, vegetables, roots, medicinal herbs, flowers and darting butterflies. Now imagine that Eden is your very own Florida yard - it can be if you plant a food forest! By creating an edible forest garden, you'll be working with nature instead of against her. No matter where you live in the state, you can transform a patch of grass or woods into a magical edible Eden in just a few years. Discover the permaculture breakthrough that may one day feed the world. Build soil, get plants for free and grow more food with less work! Learn how in this booklet by expert Florida gardener David The Good.
