Ed Rossman : Creating and Maintaining a World-Class Machine Shop: Focus on Titanium before purchasing it in order to gage whether or not it would be worth my time, and all praised Creating and Maintaining a World-Class Machine Shop: Focus on Titanium:

This manual is about proven principles of success in metal fabrication. The material presented is practical and in-use, as the examples will show. While the primary focus of this book is on machining titanium, many of the items discussed could apply to any machining or manufacturing enterprise. The look and feel of a world-class shop is described with many examples. If you own, manage, or work at a general or titanium machine shop, or at virtually any metal fabrication shop, you will find yourself referring to this manual over and over again! This manual is about proven principles of success in metal fabrication. The material presented is practical and in-use, as the examples will
