Creative lighting solutions from a variety of applications are presented, showcasing both the decorative fixtures and technical lighting considerations. There are 35 case studies, each with 2-4 pages of outstanding photos and descriptions of the lighting systems used. These are broken into categories including restaurants, entertainment spaces, public spaces and shopping areas. Most examples employ one of a kind custom designed lighting elements. How these were conceived integrated into the overall design is described. Many beautiful fixtures, unique in form and function, are shown in the detailed photos. Finally some spectacular designs in lamps, wall ceiling fixtures using varied and unusual materials are shown. Contact info. is provided for the architects, designers, manufacturers and photographers featured in the book.
