Creative is Right!!By John WalkerThis book is so creative. It has so many ideas and in detail tells you how to make these "yard art" scarecrows. These are just for the fall. These are to put in your yard year round. I love this book!!!2 of 2 people found the following review helpful. a handy referenceBy CustomerThis is a handy reference guide for anyone interested in creating a scarecrow. The author covers scarecrow structure as well as suggested materials, and make the subject accessible to the beginner as well as the master craftsman!

From the traditional straw guy to a painted sheet-metal mermaid, these 30 scarecrows and their yard figure cousins are

simply out of the ordinary and that's great news for the many crafters who compete in Best Scarecrow contests held at fairs and other venues throughout America. It's easy to construct one of these wildly creative figures with the information and instruction contained in this whimsical, charming celebration of scarecrow art. Some are crafted from organic materials such as gourds and bamboo. Others use recycled items, including a Tin Can Man and a quirky woman made from old umbrellas. A few double as a planter, trellis, or address marker. Whether to scare away birds or attract attention to the garden, these make great additions to any outdoor space.
