This severly disorganized in a manner that makes it seem like a bunch of pieces one cannot inherently put back together. I believe for a more advanced bonsai'er with some previous knowledge and experience, then the book might be "ok." But for us first timers, I need something a little more "reader friendly."7 of 10 people found the following review helpful. Excelent book for beginner and intermediateBy A CustomerMy book arrived 5 minutes ago. I have 7 books of bonsai. If I know exist this book before I buy the other, now a only keep 3. his is a very good book about bonsai, the explain, picture is great. Is very usefull,

You only need this book. Sorry My English. Alejandro
