W. P. McNaughton, R. H. Richman : Cycling of Fossil-fueled Power Plants. Volume 6: Evaluation and Strategy (EPRI GS, 7219) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cycling of Fossil-fueled Power Plants. Volume 6: Evaluation and Strategy (EPRI GS, 7219):

This report describes tools that help utilities define and evaluate strategies for cycling fossil-fueled power plants. It combines technical detail on key cycling issues with important economic considerations. Completing the report is a systematic approach to planning and applying cycling decisions.
