Dare When There's No One ThereBy Ericka C.This is a great book for men or women who either don't have someone experienced to help them around the house or don't have the experience themselves. I'm about half and half for this particular book and I'm going to take the tiled backsplash instructions and run with them and get a beautiful subway tiled backsplash. I did read the ceiling fan section closely

even though that is an area I have experience in, just to see if I missed anything (I really am not looking forward to crawling into our attic to fix someone else's mistake), but I didn't. It's a very thorough book and very easy to understand. I'm going to look at their others to see if I need to add them to my library too. 6 of 6 people found the following review helpful. Perfect Gift By Cynthia L. Nielsen This was the perfect gift for a not-so-handy-brand-new-homeowner. It appeals to the Rosie Riveter in all of us. Thank you. 9 of 9 people found the following review helpful. Nice book By Megster I believe that I'll be able to do some home repairs by following this book. Instructions clearly written, simplified, and very novice-friendly.
