**Sunset Books : Decks** before purchasing it in order to gage whether or not it would be worth my time, and all praised Decks:

0 of 0 people found the following review helpful. Very goodBy Tedgood indeed but more than I was looking for on the construction side, I am beyond being able to do the building.

This colorful gallery of photos will help spark ideas and inspiration for all types of decks. The extensive planning section covers problem areas such as hillsides, and the hard-working chapter covers basic tools and building techniques. There's even a special focus on the amenities, including railings, screens, and benches. 100 color

illustrations. 32 color photos.
