If you like rather fussy (some would say cluttered) English style interiors, full of chintz, heavy fabrics and a strong sense of history and tradition, you may like this book. However, I was looking for suggestions and ideas for decorating with pictures in a variety of rooms, from traditional to modern to eclectic, and this book didn't meet my needs. Much of the book is devoted to pages of fine art examples and only a portion of the book shows actual rooms and ways to display artwork. You won't find ANY examples of contemporary or modern rooms or ways of displaying pictures in those rooms. However, if you'd like to see some of the finest examples of various subjects for pictures, such as dog, architectural pictures, portraits, etc..and if you're fond of English decorating styles and traditions, you may want to take a look at this one. 0 of 0 people found the following review helpful. A Collector Sharing Her Art Passion By Monica H. Hagen I enjoyed the book, nice photos, the author has quite an extensive art collection and wanted to share it with the world. Limited scope, not very informative in a foundational sense, but still interesting. Some good ideas on how to display pictures in the home. 1 of 1 people found the following review helpful. decorating with pictures By A. Wrenn Pleased to receive book in excellent condition.
