Lester Walker : Designing a House: An Illustrated Guide to Planning Your Own Home before purchasing it in order to gage whether or not it would be worth my time, and all praised Designing a House: An Illustrated Guide to Planning Your Own Home:

0 of 0 people found the following review helpful. Very informative By D. Haight He writes tiny house books. I used this for designing a home, very small, and had a piece of land to put it on. Good information. Made a model as suggested too. 0 of 0 people found the following review helpful. Three Stars By Customer General design, no detailed design information.

Award-winning architect Lester Walkers books on American home architecture have become classics in the field, selling over 200,000 copies. Now, at long last, Walker has created a step-by-step guide for prospective homebuilders who want to play a role in customizing their house plan. Each stage is illustrated with easy-to-follow diagrams and photographs. Designing A House will appeal not only to the layman but to the student of architecture as the perfect introduction to the tools and methods of designing a beautiful and comfortable home.

Part history, part fantasy, part builders guide, this engaging book reflects our continuing fascination with smallness and miniaturization. Witold Rybczynski, author of *Home* A treasure chest of inspiration for any would-be builder (or dreamer). Common Reader About the Author Lester Walker is an award-winning architect and author of numerous books including *American Shelter*, *Tiny Houses*, and *Block Building for Children*. He lives in Woodstock, New York, where his architectural practice is based.
