**David Phillips, Megumi Yamashita : Detail in Contemporary Residential Architecture 2** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Detail in Contemporary Residential Architecture 2:

Detail in Contemporary Residential Architecture 2 follows on from the success of the first book in the series, and contains all new projects. Featuring the work of renowned architects from around the world, this book presents 50 of the most recently completed and influential designs, along with analysis of both the technical and the aesthetic importance of details in modern residential architecture. The projects are presented in clear and concise layouts over four pages. All of the drawings are styled consistently and presented at standard architectural scales to allow for easy comparison. Each project is presented with color photographs, site plans, and sections and elevations, as well as numerous construction details. There is also descriptive text, detailed captions and in-depth information for each project. A bonus CD contains drawings from the book, in both .eps and .dwg (generic CAD) formats.

"Detail in Contemporary Residential Architecture 2 by David Phillips and Megumi Tamashita published by Laurence King in October 2014 follows on from the success of the first book in the series and contains entirely new projects." - Architect, Builder, Contractor Developer (ABC+D) About the Author David Phillips graduated with an MA in fine art from the Royal College of Art, London and later studied architecture at London South Bank University. He has worked for a number of leading architecture and design companies in the UK. Currently he is a senior lecturer in design at the University of the Arts London. Megumi Yamashita is a journalist writing about architecture and design for various publishers in both the UK and Japan.
