The book is loaded with DIY projects that can be applied in any home. I love doing things by myself and I saw some of the things that I could have solved by myself but I had no know how. There are somethings that I have thrown away and I could have used it in a beneficial way. I have learned a lot from the book and I will be doing most of this in my house and I am sure that I will be able to save a lot. I highly recommend this book in every household and more especially to every woman. Great work, thanks to the author for sharing this information.1 of 1 people found the following review helpful. Lots of instructions and illustrations to guide youBy ZaraThis is an impressive collection of DIY projects. It includes pretty much all the details you need and I was interested after seeing that you can make most of what you use daily at home and in different, unique and creative ways. I think I could try to make some of these when I'm bored at home since it's really interesting. There were even concealer, lipstick, sewing kit, nail polish, personalized mug, hand scrub, Christmas decorations and many many more. I think this is definitely interesting collection of DIY and I find it unique as I haven't seen this in other guides before. It also helps that the author included so many illustrations to help the readers step by step.0 of 0 people found the following review helpful. Don't waste your time or moneyBy Faithful BuyerDon't waste your time or money.- The book cover looks VERY good on the listing, but every picture inside the book is low-quality and only black and white.- Almost all of the DIY suggestions are so generic that they seem to have been put together by a high school student. For example, one "recommendation" is to make a tent using bed sheets so your child can have a fort. That's all they wrote for that suggestion.- None of the recommendations that I saw have any step-by-step instructions.- This entire series of "365" books related to DIY, Knitting, Hacks, Skin Care, Candle Making, etc. all seem to follow the same formula of poor suggestions, low-quality production values, and attractive looking book cover.- I returned this book the same day it arrived.

There are so many ways you can easily help yourself around the house, as you clean, with your kids and pets and even beauty treatments. Essentially, all of these things can be achieved at home with products and materials that you might already have on hand. Wouldnt it be nice to create things o your own versus purchasing products from the store?
