Jennifer Adams : Do Security Systems Really Protect Your Home?: A Discussion on the Efficiency of Automated Security Systems for Your Home before purchasing it in order to gage whether or not it would be worth my time, and all praised Do Security Systems Really Protect Your Home?: A Discussion on the Efficiency of

## Automated Security Systems for Your Home:

Home security systems act as both a theft deterrent and provide assurance that a home will not be broken into for a home owner. Further a home security system provides monitoring which involves contacting police at any signs of a break in or a fire which can help to preserve home value.
