Domino: The Book of Decorating cracks the code to creating a beautiful home, bringing together inspiring rooms, how-to advice and insiders' secrets from today's premier tastemakers in an indispensable style manual. The editors take readers room by room, tapping the best ideas from domino magazine and culling insights from their own experiences. With an eye to making design accessible and exciting, this book demystifies the decorating process and provides the tools for making spaces that are personal, functional and fabulous.

From School Library Journal The editors of Domino magazine here show how amateurs can achieve a young, sophisticated look in their homes. A brief review of important preliminary considerations budget, defining one's own style, the room's function is followed by advice for decorating every room of the house, including children's rooms and offices. Different styles are shown for each in plenty of color photographs, with suggested furnishings and advice on how to mix styles. Each chapter concludes with a look at how a Domino staff member has decorated a similar room with a description of her approach to design. Recommended for large public libraries.
