**Ivy Liu, Jian Wong : Eco Design: Furniture** before purchasing it in order to gage whether or not it would be worth my time, and all praised Eco Design: Furniture:

Following the huge demand in contemporary societies to decorate homes in a "green" style, this book offers a more environmentally conscious approach to design and production processes by presenting a wide range of furniture products made with natural materials as well as using recycling and more environment respecting technologies.

About the AuthorBased in Shenyang (China) Dopress Books focuses on creating high qualityand useful books for professional designers and artists.
