**Eden Project : Eden Project: The Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Eden Project: The Guide:

The Eden Project domes are an architectural marvel, have been described as the eighth wonder of the world and are an extension of Buckminster Fuller's aspirations, but the place itself is so much more, a real ongoing project that in many ways attempt to fulfill Bucky's dreams of a world interconnected for the benefit of all. It would be very difficult to sum up all of it's parts here, there are many serious and ambitious projects within the site and spanning the globe including understanding the goods and services nature provides us, different cultures, connecting people to create fair trade practices, raising environmental awareness, and more. This guidebook is a very short read at sixty-four pages but gives

a very informative overview of the displays and offers insights beyond the lush beauty and stunning art work that is presented in a very thought provoking manner. I recommend it to anyone planning to go there, you will gain a much better understanding of the many exhibits, it's a little bit pricey at 10 bucks but hey they're 12 at the door...For a more comprehensive five star read that stands on it's own merit I recommend Out of Eden the Eden Project Companion available from used booksellers through for less money, at two hundred-forty pages a true bargain and an inspiring read.0 of 0 people found the following review helpful. Five StarsBy Chris M. IgnatowskiExcellent!

Eden Project: The Guide is a revised and updated edition of the highly illustrated guide to the Eden Project site, with a clear user-friendly explanation of all the exhibits, in a landscape format. The guide takes the visitor from the Visitor Centre down into the pit and has distinct sections explaining events and performances at Eden, the exhibits in the Outdoor Biome, the Rainforest Biome, the Mediterranean Biome and the Core with an update on the new Arid Tropics Biome the Edge, and a final section on history, facts and stats.
