Ambitious and curious observer.By Steve HendrithNicely put together with good photography and advice based on observations by the curious and ambitious Rosalind Creasy.0 of 1 people found the following review helpful. A great way to go "green"By Douglas ForneyI saw this at a friends house and had to get my own copy. Since I now have room for a garden I planted a variety of peppers and used the suggestions to pick and preserve my own. Now I can make salsa, pickled peppers, etc. saves money and the good for the environment. Even the "week-end" gardener will find this helpful.0 of 1 people found the following review helpful. Informative and Colorful!By GhostpeppermanTells about different varieties and has lots of color pictures to match what they talk about.A must have for any Pepper lover!
