This book is a whirlwind tour of the various indigenous styles found throughout the world. Full of photos, it has many opportunities for inspiration, as well as insightful text by the author. I figured out what color to paint my kitchen by browsing through this book. A keeper.

Every beautiful photograph in this informative volume will make readers itch to experiment with simple color washes for walls, new uses for handwoven fabrics, and innovations in applying tiles in the home. The author imaginatively interprets global decoration on a domestic scale, devoting the second part of the book to practical ways to introduce ethnic style into a personal decor.
