**Alfred Byrd Graf : Exotica Series 3, 8th Edition, Pictorial Cyclopedia of Exotic Plants from Tropical and Near-tropic Regions** before purchasing it in order to gage whether or not it would be worth my time, and all praised Exotica Series 3, 8th Edition, Pictorial Cyclopedia of Exotic Plants from Tropical and Near-tropic Regions:

1 of 1 people found the following review helpful. This is a wonderful bookBy david statonThis book has more tropical plants illustrated than any book I could hope to find. It also shows photos of plants at different stages of their development. The only thing bad about the book is there is so much information that it is to heavy to hold on your lap; and that is not really a problem.

Large; 1834 pages with 12,000 illustrations; 204 plants in color. Guide to Care of Plants Indoors; Horticultural Color Guide; Plant Geography
