David Owens : Extreme Gardening: How to Grow Organic in the Hostile Deserts before purchasing it in order to gage whether or not it would be worth my time, and all praised Extreme Gardening: How to Grow Organic in the Hostile Deserts:

1 of 1 people found the following review helpful. Five StarsBy debrakrupBest desert book available2 of 2 people found the following review helpful. Good reference.By Carolyn KanePacked with information that is immediately usable. While it's written for the low desert of southern Arizona, much of the information can be used in all growing zones. Good reference book for practical information on what plants to grow together, natural remedies, etc.0 of 0 people found the following review helpful. Five StarsBy Glen PArrived just as expected, thank you

Extreme Gardening is the quintessential gardening guide to organic gardening against all odds. Written by the well-known gardening guru, the "Garden Guy," David Owens shows the experienced and novice gardener how to grow organic foods in hostile climates (all desert climates) and land. Simple to understand with user-friendly spine, the book covers all topics from watering, design, tools, schedules, fertilizing, companion planting, and soils. The book is easily divided into three main sections-vegetables, fruits and nuts, and controlling extreme pests organically. Each section is full of useful tips such as: each plants nickname; when they are available; how they should be supported; when to plant them; how to properly shade or unshade it; and how to fertilize it, etc. The controlling extreme pests section is broken down into sections by bug name and how to use organic, insect, and sensory-distracting controls. The author, David Owens is a familiar face on local Phoenix television and radio as one of the foremost experts on organic gardening.

"Dave has been the Garden Guy for a long time, but with this book, he is now the Garden Guru of the southwest desert...." -- A. Wayne Smith, The Farm at South Mountain
"This is probably the best gardening book since that American classic, Catcher in the Rye Grass." -- Dan Davis, co-host of "Good Morning Arizona," KTVK
