Marypaul Yates : Fabrics: A Guide for Interior Designers and Architects (Norton Professional Books for Architects Designers) before purchasing it in order to gage whether or not it would be worth my time, and all praised Fabrics: A Guide for Interior Designers and Architects (Norton Professional Books for Architects Designers):

3 of 3 people found the following review helpful. Very helpful book on fabricsBy K. WassermanI ordered this book for a class and though I have not read through it enirely I plan to keep it for many years into the future. It is an extremely useful book for either fashion or interior design students needing to learn all there is to know about all kinds of fabrics. It might even be useful to avid sewers who desire to learn more about the differences between fabrics and

their uses. 1 of 1 people found the following review helpful. Five Stars By LeoGreat book to learn with. 0 of 0 people found the following review helpful. Four Stars By CustomerExcellent service-received item quickly

Fabrics provides designers with the information needed to make their fabric specifications easy, informed, and appropriate to the job at hand, considering aesthetics, performance, application, and green design. This thorough handbook by a textile professional describes and illustrates fibers and yarns, fabric structures, fabric design, dye and printing processes, finishes and treatments, styles and applications of cloth for furniture, window-, wall-, and floor coverings. Also covered are testing and flaws; the fabric industry, and professional practice. 500 color illustrations

A worthy addition to an interior designers or decorators library will intrigue the reader who wants to learn about [the] field. - Julie Dillon, Houses: The Residential Architecture Magazine Essential for anyone interested in cloth, particularly those who work with it professionally. - Sydney Morning Herald About the Author Mary Paul Yates, is principal of Yates Design Inc., which provides marketing, design, and color services to the interior furnishings field. She has pioneered innovative materials and environmentally intelligent business models, creating private label and signature fabric and furniture collections for extensive and diverse clients. She has taught at Parsons School of Design, Fashion Institute of Technology, and Hunter College. She authored Textiles: A Handbook for Designers and Fabrics: A Guide for Interior Designers and Architects.
