By luceGreat book with lots of decorating ideas. The gardens in the homes are also beautiful and inspiring especially if you are doing a renovation. 5 of 5 people found the following review helpful. Nice Photography. By C. Hassenflu I am an interior designer and I bought three of these books. The photography is nice, the interiors are clean line, the furnishings are simple. All three of the books are very similar, one would have been enough to get the feel.

Everyone has their own opinion about how the ideal family home should look. This difference out clearly in the various reports in this book, which range from historic country houses that have belonged to the same family for generations to distinctive, recently built homes for young families with children.
