**Rick Kubik : Farm Fences and Gates: Build and Repair Fences to Keep Livestock In and Pests Out** before purchasing it in order to gage whether or not it would be worth my time, and all praised Farm Fences and Gates: Build and Repair Fences to Keep Livestock In and Pests Out:

5 of 5 people found the following review helpful. Great addition to my Ranch Book collectionBy Paul RGreat addition to my Ranch Book collection. This is more of a description of fence types rather than a "how-to". I was looking for the latter... that's the only reason I didn't give it 5 stars. The book arrived on time, and in excellent condition.0 of 0 people found the following review helpful. One StarBy Kim FaheyWHAT GATES?0 of 0 people found the following review helpful. Five StarsBy SusanGreat book. Very helpful.

If you raise livestock or crops, you'll need a fence. Good fences are critical to success. They protect your animals (and

plants) and keep them at home, and they can also minimize the damage done by pests and predators. In *Farm Fences and Gates*, you'll learn how to build and repair the fences you need--and that make the difference between a world of trouble and peace of mind. Wood posts or steel, wire mesh, barbed wire, chain link, or rail, this book will help you figure out what kind of fence is appropriate and how to plan its construction. Useful diagrams and charts help you estimate how much material you'll need and how to go about installing and maintaining a solid, dependable fence. Writer and farm consultant Rick Kubik offers clear and expert advice on what works best in certain areas and for particular purposes. His instructions for planning and constructing each variety of fencing take the guesswork out of a job of critical importance to most landowners (and their neighbors). *Farm Fences and Gates* is the first and most essential tool for anyone thinking of building a fence. This complete guidebook will save time and money for beginners and seasoned builders alike by explaining how to do the job right the first time around.

**About the Author** Rick Kubik is a certified crop adviser for the American Society of Agronomy and lives in Strathmore, Alberta, Canada. He is the author of *Farm Safety Smarts* and *How To Set Up Your Farm Workshop*.
