Sad but Needed StoryBy Marc SLucia Greenhouse`s book is a sad but revealing and well written story about the depressing faith of The Church of Christ Scientist. It is a story about a faith that could be described as "believing what you know ain`t true". What you see is not what you see, what you feel is not what you really feel, healings that aren`t. I sorrow for children like little Lucia who are forced to live through injuries without medical care, denial of reality, and tragic loss that is unnecessary. I applaud Mrs. Greenhouse for her candor and courage to tell her story though it is not a complementary one for the leaders of the faith she trusted in as long as she could. The Jesus she was taught is not the Jesus of reality and hope.Marc M.
