L. Nick Felder : Felder's Comprehensive 2006 before purchasing it in order to gage whether or not it would be worth my time, and all praised Felder's Comprehensive 2006:

Now in its second year and fully updated, Felder's Comprehensive, our indispensable annual desk reference and directory, comes jam-packed with far more information than its nearest competitor. Here you will find thousands of clearly organized and easy-to-use listings aimed at those of us who practice or work in the fields of architecture, design, design/build, construction, interior design, facility management, and real-estate development. This revised edition offers a wealth of new sections, including grants and endowments, Web-based media, and architectural salvage all told an addition of more than 5,000 listings. These are added to Felder's already unrivalled catalog of more than 16,000

manufacturers of furnishings, fixtures, equipment, and materials. Felder's also lists design competitions, domestic and international trade shows, awards honors, educational institutions, trade publications and other media, software programs, trade associations, professional organizations, design centers, and more. Most sections are indexed and cross-referenced by name, date, location, category and other criteria for easy referral and identification. We use our copy every day, so we can say with some confidence that you will find Felder's Comprehensive to be an essential reference standard.

"If the price seems steep, consider this: It turns out to be only about half a cent per listing." -- Interior Design Magazine, September 2005
About the Author
L. Nick Felder was a founding partner in AltSpec, a resource directory for the A/E/C industries. Building on the database he created there, Felder has compiled and organized data to create this comprehensive new sourcebook.
