Dawn H Gouge : Field guide to the insects, mites and mollusks of nursery, floral and greenhouse crops before purchasing it in order to gage whether or not it would be worth my time, and all praised Field guide to the insects, mites and mollusks of nursery, floral and greenhouse crops:

How many Aggies does it take to paint a house? 2.401. One to hold the brush and 2400 to turn the house. One thing Aggies do well, though, is to support agriculture, and this little field guide is a typical example. It aims to help greenhouse and nursery growers identify some of the common insects found on their crops, and it does so with useful photos and text.
