John Holms : Flower Gardening 1-2-3 before purchasing it in order to gage whether or not it would be worth my time, and all praised Flower Gardening 1-2-3:

At least for me. I am an amateur Weekend Gardener. The Book is very well written, easy to understand, thorough, and both skillfully organized illustrated. It has an amazing amount of useful information in just 256 pages. I tried to buy a copy at my local Home Depot, but they were out. Now I know why.This is the Book I've been looking for, but bought others before finding it. I bought the "Better Homes Gardens New Complete Guide to Landscaping" which is also good and, in some ways, more comprehensive. But I strongly prefer "1-2-3". It became my "Bible" virtually instantly.I previously also "stretched" and bought "Taylor's Guide: Encyclopedia of Garden Plants" It has lots more Plants varieties -- and some

very long explanations. Yet, they could take valuable lessons from the Folks at Home Depot in how to "present" the information in their Encyclopedia. I'd buy a copy of an expanded "1-2-3" version in an instant, where I'd leave Taylor's to the true Experts -- as it is intended. Another Reviewer calls 1-2-3 "A first-rate reference for flower gardening." (March 22, 2002). I enthusiastically agree. However, my one wish is for Home Depot to expand both the Flower Encyclopedia and the Index Sections (giving Taylor's something to shoot at). I know I'd buy a "1-2-3" version if I had a chance. Well done Home Depot! 0 of 0 people found the following review helpful. Five Stars By Donna Forest This book is perfect for beginners and pros as well. So informative and so easy to understand... 0 of 0 people found the following review helpful. Flower Gardening 1-2-3 By Barbara I bought this book for my son who is a landscaper This gives him helpful information for his business. He can look up what type of plant will go with the clients landscape and also is used as a good reference guide. The price was very good too and I saved on time and money by saving on gas driving from bookstore to bookstore to find the perfect book and time by looking at the books content in the comfort of my home.
