Michael F Schepers : Fragrance of Sage: Still Gardening: A collection of poems before purchasing it in order to gage whether or not it would be worth my time, and all praised Fragrance of Sage: Still Gardening: A collection of poems:

A variety of poems full of imagery about the garden. This is a unique take on the experience one feels in nature and it

pulls back curtains to make us consider new things. It is not an attempt to describe nature with words that glow. There is not in this book instructional how to's to gardening or for life. It is very simply an eclectic mix of very well done poems that will get you enjoying your garden more. In reading this book there are simple concepts of time and space to consider. There is in this book an unveiling of the relationship we have with nature but never is there a telling. A nicely penned book that will bring you right into your garden.
