There's nothing better than a little "joie de vivre" to brighten up your decor! Filled with gorgeous photography and an abundance of helpful design ideas, this book is guaranteed to bring the cozy comfort of classic French style into your home. Learn how to create an inviting look that will welcome friends and family and help you show off your own

creative taste. This beautiful book includes ideas for the beginner or the experienced interior designer who has a love for French or Country French design. Joyce walks her readers through the process of analyzing a room prior to redecorating and then gives pointers for success, whether you intend to redecorate all at once or just by baby steps with one basket or lamp at a time. She includes tips and tricks for knowing where to shop for authentic French antiques, how to get the best deals at auctions, and how to re-purpose your existing decor to give it a "French" look. Helpful tutorials for creating your own paint finishes and sewing slipcovers are included as well. You'll also get the grand tour with photos of home interiors that use some of her techniques, including some that have "bent the rules" to bring in just enough rustic, chippy, casual French design to make the home livable and loveable.

Anita Joyce is amazing and this book is the best interior design book I have ever read, and believe me I have read quite a few. French Accents is wonderfully written and full of valuable tips and beautiful photographs. I wish I had discovered Anita and this book before my buying trip to France last year. A walk through Anita's process would have been invaluable in the markets in Paris and Provence. Anyone interested in French style must have a copy of French Accents handy. Those with other styles will also benefit from her honest, down to earth approach to reflecting one's own style. I have actually read it cover to cover, soaking up all Anita has to share. Thanks! --Beautiful pictures! Beautiful style- some of the text does not line up with the photos shown on the page- but very inspirational- now I want my whole house to be decorated French Country style. --Enjoyed this book from page one onward! Felt like she was speaking directly to me and in such a wonderful conversational manner. Am starting to re-read it all over again. Picking up fresh ideas is so much fun and I find this book full of them. Thanks Anita for such a terrific and informative book - and one that is done with such clarity and openness. Would love to see another in the future. --
