Living in the U.S. I don't have access to many of the authentic farmhouse pieces that I love. This book has shown me how to mix " modern farmhouse" with the real thing.0 of 0 people found the following review helpful. Nice bookBy Ameena A.I really liked this book but, for me, I found it too wordy. I wanted more pictures. I think this would be a great book for a designer or very serious fan of French Country, however. For me, too much text and not enough illustrations.0 of 0 people found the following review helpful. A nice arm chair readBy NY readerThis was a nice book for a cup of tea and afternoons entertainment. Not a keeper however. I buy many French decorating books so am a bit picky on my reading material.

If you yearn for both elegance and cozy comfort, French country decor is for you! Whether you go wall-to-wall or simply select mood-setting accents, this exquisitely photographed idea book will inspire the French country designer within. Pull together a bedroom with a jaunty Provencal fabric, furnish your dining area with handsomely carved antique pieces, or warm up a sterile space with charmingly rugged architectural details. From wrought iron fixtures to

rich color schemes, infuse every room with earthy, romantic appeal.
