French Style at HomeBy Jan BerryEvery Francophile should own this book. I love it. From this book one can truly make their home into a french villa by carefully taking note of the way in which the french achieve the look. In my opinion the first step is to come up with the wonderful grey tones and work from their, walls first. The photography is great and the text very easy to read. France is the worlds style destination, and photographer Sbastien Siraudeau has scoured the hexagon to uncover eighty

of its most charming boutique guesthouses, each rich in the design details that epitomize French style. Thirty of these locations are featured in individual chapters with photographs highlighting their particular flair from a trompe-l'oeil wall mural, to a damask upholstered chaise lounge, or a simple row of ocean-polished stones. Those seeking inspiration for their own home interiors will find this book rich in ideas for a wide variety of styles elegant crystal chandeliers may take center stage in one room, but a simple wooden bench, worn smooth with centuries of use, can be just as captivating in another. Gently faded neutrals create a quiet harmony in one setting, while another is alive with splashes of vivid color. Sleek and modern or cozy and rustic, each of these hand-picked settings is as inviting as a deep leather armchair. Organized thematically, these destinations will inspire the reader to recreate the same atmospheric interiors at home. This handsome volume includes a black book of the best design destinations the country has to offer from châteaux, country manors, and farmhouses, to urban apartments, hotels, and B&Bs. A practical guide grouped by region includes price indicators and online tourist information.
