From 83 Press : French Style with French Style before purchasing it in order to gauge whether or not it would be worth my time, and all praised French Style with French Style:

0 of 0 people found the following review helpful. Five Stars By Nancy J. Thayer FOR GIFTS. 2 of 2 people found the following review helpful. Not my fave! By isadora Did not care much for this book. I thought it probably wasn't worth the excellent reviews others have given it but obviously that does not mean that we all think the same. This is a book you will have to leaf through on your own and decide... 0 of 0 people found the following review helpful. disappointed -- too rustic not worth the cost By Designer1 This is a very thick nice book, well put together, just not at all the "French Style" that I love. It's very rustic old French, plain mostly country, not the higher end French decorating. I was so excited about this book, but felt so let down by it, am actually going to give it away.

Step into lovely French homes and shops for inspiration and enchanting ideas. Heirloom antiques and charming villages create a memorable journey throughout the pages of this book. Serene color palettes and timeless retreats provide an abundance of decorating inspiration and dreams of the countryside. Gorgeous photography throughout will inspire your heart to make lifelong dreams come true. French Style with Vintage Finds features ten charming homes inspired by the beauty and romance of France, each with their own distinctive style and pieces that evoke a Gallic ambience. Louis XVI chairs in just the right place, an aged clock, or a distressed mirror above a table made from salvaged ironwork can bring the history and splendor of France to your home. As the world's top tourist destination, there are many antique markets and brocantes in France specializing in everything home and garden just waiting to be explored. They are a way of life for the French. These beautiful villages and markets are captured in full color photography and appear alongside commentary from the experts. From architectural salvage and antique canvases to kitchen jars and jewelry, this book will satisfy the passions of those seeking a part of this timeless culture.

About the Author An Alabama native, Cindy Cooper received her bachelors degree from Auburn University and joined Southern Progress Corporation as a magazine designer in 1979. During her subsequent career within Southern Progress and Oxmoor House, Inc., she led creative teams in the publication of various books and magazines, including Cooking Light, Southern Living, Weight Watchers, and Coastal Living. After joining Hoffman Media, Cindy directed the editorial team of Cooking with Paula Deen before overseeing the launch of The Cottage Journal.
