I would like to have seen more of the interior and more ...By Rhetta AkamatsuThis book was slightly disappointing to me because I wanted to know more about the quirky features of the house that make it unique. Most of the pictures and text have to do without the outside of the house and most of them are from the early years of the 20th century. It is still a very interesting book but it just wasn't really what I wanted. In particular, I would like to have seen more of the interior and more photos of the friars that give the house its name.1 of 1 people found the following review helpful. A wealth of info on the history of Friar ParkBy GravelStoneInformation on Friar Park and Frank Crisp is scarce but this book brings together a wealth of history through copies of old photos, postcards and maps. I'm hopeful that more information is forthcoming, especially regarding the interior of the structures. It would also be interesting to see a large clear copy of the "Friar Park Plan of Ye Gardens" and any other

info that was contained in the Visitor's Guide from a century ago. A great book for fans of Frank Crisp, beautiful gardens, turn of the century Gothic architecture and history but with a large dose of humor and quirkiness.0 of 0 people found the following review helpful. This book is AMAZING. I have been to Friar Park a few ...By Kathleen JoyceThis book is AMAZING. I have been to Friar Park a few times in my life and would LOVE to go back. This gives you a complete tour of the grounds and the history....LOVE IT !!

Beautiful full-COLOR pages! Filled to the brim with over 170 vintage and original photos and illustrations, "Friar Park: A Pictorial History" gives a grand tour of the incredible, Victorian neo-Gothic mansion, spectacular Lodges, amazing gardens, lakes, secret caves, and wonderful grounds of Friar Park in Henley-on-Thames as it looked in the late 19th and early 20th century. Original black and white and lush colorized photos and postcards, along with accompanying captions, tell the story of Friar Park from its design and construction by eccentric lawyer Sir Frank Crisp beginning in the 19th century, and give a magical mystery tour that no fan of landscaped gardens, Victorian architecture, and architectural history will ever forget. There has never been a book like this before. Welcome to Friar Park! Potential readers should be assured that we purposely design our books to be reminiscent of vintage publications. These are clearly not designed to look like shiny, glossy coffee-table style books. They are designed to look like someone found them at the bottom of a stack of books, in a dusty old antique shop. Rather than being beautiful, the publishers chose to do something a bit more interesting and creative. This publication is a scholastic and educational study of an architecturally and historically significant English country house. This book is a must-have for any fan of Henley-on-Thames, English Country Houses, The Beatles, George Harrison, and of course Sir Frank Crisp.

About the AuthorThe Cardinals are a collective of Investigative Architectural Historians,who combine their efforts to produce publish projects with a visual approach to educational storytelling. They are the recipients of numerous prestigious awards. As film TV Script Doctors ghost writers, their list of uncredited work is endless. Their most recent collaborations showcase the history and architecture of 19th century - early 20th century residential apartment buildings in New York City.
