The photos are beautiful, it's nicely laid out, and it's got an impressive heft to it. It personally bugs me that the book is very large since it takes up nearly the entire coffee table and doesn't fit on our bookshelves....but the hubby likes it, so that's all that matters in the end. A great gift for design junkies and architects to add to their library!2 of 2 people found the following review helpful. FROM THE LANDBy Michael HarrisI love this book. I have bought ten at least on as gifts. It's a beautiful coffee table book as well as a resource for some interesting places to visit in the Napa Valley. Howard Backen is a genius architect. This is well worth the read.0 of 0 people found the following review helpful. Plans and photographs of great architectureBy FredThis book is beautiful, the architecture is wonderful, and the book actually showed some basic plans, which made up for the writing, which

wasn't all that illuminating, at least as far as architecture goes. The book is well worth the money, and will probably be something you can enjoy time after time.

Elegant rusticity meets unpretentious luxury in the work of this award-winning architecture firm. Howard Backen, principal of the architecture firm Backen, Gillam Kroeger, is at the center of a popular movement in home design that emphasizes elegant simplicity and embraces the rustic charm of natural materials. This volume, the first on his work and that of the firm, is an artful exploration of this aesthetic, featuring farmhouses in the Napa Valley, hilltop homes, seaside retreats, and lakeside hideaways. Throughout the work, a sense of intimacy, warmth, and informality pervades. Natural materials, such as wood, stone, and brick, form the foundations, walls, and ceilings of these subtly luxurious spaces, while nature itself plays a considered role that is at once complementary and also intricately conjoined with the work. Sensitive, alluring, and wonderfully resonant with the suggestion of invitation, the work of Backen, Gillam Kroeger is both thrilling to the eye and restorative to the soul.

From hilltop homes to seaside retreats, nature and design artfully intersect in these elegant, unpretentious spaces. The simplicity and charm of natural materials such as stone and brick provide a sense of warmth and luxury that you'll want in your own home. ~At Home Magazine the sheer size and weight of the book reflects the enormity of his accomplishments and influence. But it's a beauty filled with images of 38 properties, from wineries to seaside retreats, with images so large, you could believe you've stepped into the house. ~Napa Valley Register. [one of] this falls highly anticipated design titles from AD100 talent, filled with remarkable spaces and expert advice. Editor and author Daniel P. Gregory surveys the work of California firm Backen, Gillam Kroeger whose signature rustic aesthetic emphasizes natural materials. ~Architectural Digest This volume isn't overrun with text or filled with the filler of meaningless black and white snaps, as so many of these books are. Instead clients are mentioned, plans are explained, materials and layouts are discussed. And the placement of each photo is as deliberate as the projects that are highlighted within. Backen understands that powerful architecture is a successful manifestation of the dialogue between structure and surrounding. His work is brave and moving because it demands that we not only look at it, but beyond it. ~Nintchka.com From the Land is an artful exploration of the architecture firm's aesthetic. Throughout the work, a sense of intimacy, warmth, and informality pervades. ~Editor at Large From the Land, a new shelter book by Daniel P. Gregory from Rizzoli, showcases the stunning portfolio of Napa-based architects Backen, Gillam Kroeger. ~Gentry Magazine About the Author Daniel P.
