Kevin Ley : Furniture Making: Plans, Projects Design before purchasing it in order to gage whether or not it would be worth my time, and all praised Furniture Making: Plans, Projects Design:

4 of 4 people found the following review helpful. Ok BookBy K. MaplesThis book was ok for ideas but I am an intermediate woodworker and would have liked a more step by step approach to making the projects. I like the table but it should have been layed out step by step a little better.

With his inimitable style and countless articles in Furniture and Cabinetmaking magazine, Ken Ley has developed a loyal following. Now, his essays have been anthologized in this wonderful collection that takes the beginning and advanced woodworker through his uniquely simple approach to furniture making. Twelve stunning and diverse projects are detailed and accompanied by hundreds of color illustrations, and all of the pieces from a mahogany filing cabinet and burr elm apothecarys chest to a pale ash chest and oak TV cabinet can be completed with a basic range of

tools and facilities. With concise, logical instructions and Ley's infectious enthusiasm, learning to build stunning furniture has never been more fun.

About the Author Kevin Ley is a regular contributor to Furniture Cabinetmaking Magazine. He has written three previous books for GMC: *Kevin Ley's Furniture Projects: Practical Designs for Modern Living* (ISBN: 1 86108 185 5); *Furniture Projects with the Router* (ISBN: 1 86108 345 9); and *Furniture Workshop: A Woodworker's Guide* (ISBN: 1 86108 375 0). Kevin lives in Ludlow, Shropshire.
